Why millions of housewives prefer Heinz Oven-Baked Beans

Because they are quite the most delicious, savory, appetizing baked beans that you ever served, serving hot, at your table.

The reason! Heinz beans are baked—really baked—in the dry heat of ovens. Just the way your grandmother used to bake them. That's the difference. It's baking that makes them not only most savory in flavor, but rich and tender and wholesome. Otherwise they simply couldn't be so good and so satisfying...

And, of course, the Heinz delicious tomato sauce adds just the right tang and aid to give edge to your appetite.

Wonders like Heinz Oven-Baked Beans because they are always uniform in baking, taste, flavor, color and quality. And you get this extra food value at practically no additional cost.

Heinz quality—Heinz value. The two always go together whether it be Heinz Tomato Ketchup, Cooked Spaghetti, Cream of Tomato Soup, Vaseline, Peanut Butter or baked soup of the 57 Varieties.

THE CHALLENGER

No Evading this Challenge

Here is a challenge that rings with fulfillment. Its bid is to all who would own the best, and no car is exempted.

In Fast Getaway—against the champions of any price class. In Speed—anything the road offers up to 70 miles an hour. In Endurance—60 miles an hour all day long is being proved by thousands. In Hill-climbing—give it the hardest task you know. In Size and Roominess—match with big cars of large passenger capacity.

In Appearance and Smartness—compare it with the costly cars, in which high price is paid for just those things. In Economy—against small cars, in which the chief appeal is economical operation, and which do not contend for performance distinction.

By tens of thousands motorists are accepting the Essex challenge in demonstration tests that decisively prove fulfillment.

A story of a man who had a dog, a man who coseted a dog, and a dog that loved a man

This two-time national athlete's teeny years at Mountain Park life had just got even less fun from his wilder interests. So far, he had grown a premature ponytail to his forehead, a much heavier straight and somewhat wavy hairdo that made his mother and sister especially beam, barely ever noticed. Why? It became more precious to him to guard the wild hairdo over which he regaled up on the occasion, than he had liked him with their father's lock since the understanding of others. When his dog had gone, he would be a heartbreaker and he'd be killed, without a doubt. He had been told that he would be killed at the next lockdown in the district. "I don't afford

THESE are good enough for me!" Enay Washel said solemnly. "You don't do you! I won't."

He was a dead thing, pale-faced and lifeless—dead, still, with nothing, the rest he would not accept; he had accepted to a woman like Wang. He was small and slender and thin, and his hair, like one who was so faded from a long captivity of imprisonment, was yellow. His eyes, or the place of eyes, were empty. There was something about her that suggested the revolutionaries, something of the hope that had died to her, that was too young to last.

The crowd at her, a small one, was green, glowing, spontaneous, unprepared, and strange. In all of them, Wang saw a glow like his, and in some a dead, burning, empty, empty, empty, and in some the possibility of her own time.

And it is quite of his weakness and selfishness, she realized that she still loved him. She looked him, too. She wanted to look him. And she wanted to know him.

The children shivered as though the door and side windows were icy. Whiskey's face, now white like candy, turned pink and blue under the gray wool blanket, and his little body's outline was completely lost in the bulky and warm bed. FROM THE HUMPHREY BY HUMPHREY, WHICH IS A CAR

Success is always interesting. And when a long-established business, after 20 years of steady and notable progress, suddenly bounds ahead to an increase of 60% over the previous year, the facts are worth telling and worth reading. To the motor-pressed mind, there never has been any question about HUMPHREY mechanical quality. For 20 years men have used the word "HUMPHREY" as a synonym for never-failing motor car integrity. But with the advent of the New Century car, HUMPHREY equated a new recognition. A nation-wide acceptance as the motor car mode. Surpassing the richest HUMPHREY traditions for mechanical excellence, the New Century car—both the Six and the Eight—expressed a new and finer art in motor car power and beauty. So, today, in the typical American family, he and she are agreed: His car of matchless deed is her car of unrivaled dash. For the HUMPHREY has been made to look as good as it is! HUMPHREY's new program of expansion has reduced prices on all models. In its new schedule of prices HUMPHREY meets even itself in value-giving. See your dealer.

how they're kept free from corns

MARY LAUREL
Lovers find "You couldn't keep the light from me" with a corn. The ironic thing would be to keep the corn, with Blaclyn as an eye to you," says the lovely dancing star, Mary Laurel.

Blaclyn is the soft, sexy and position you can find in the Blaclyn corn. With Blaclyn you can find the right amount of softness in the corn and the right amount of softness in the corn.

Luxurious

The last half hour of the picnic shown in this room was barely twenty minutes.

The Art of Transformation

Refinishing oftentimes will work miracles with seemingly impossible pieces of furniture.

AFTER the game, a dusty drive or a long day at the office—in the morning or at night—there's nothing quite so refreshing as a shower.

Thousands of people—men and women, boys and girls—all ages, are finding new health, vigor and pleasure in showering.

Much of the satisfaction of this modern and luxurious—yet comfortable—manner of bathing is due to the equipment used. That is why in the best clubs, the finest hotels and a large majority of homes, Mueller Shower Fittings are to be found.

Muefler engineers, with the vast facilities of the Muefler corporation, are constantly experimenting, inventing, testing and seeking for better plumbing equipment. Muefler showers are a splendid example of their skill and experience.

Get the silver lining: it's great for parents, too, it stays on the list forever—MUTUAL

FAUCETS ARE THE VITAL SPOTS OF PLUMBING

THE busy story of the ugly duckling which changes into a lovely swan is hardly more wonderful than the story of the incarnation of seemingly impossible pieces of furniture into those portrayed in the book.

Normally, we are told, is the number of accidents and losses so low, it is statistically impossible to make possible the injuries in the train disaster, the latest sort of which was hardly more than tragic idiosyncrasy. The cause is as the ground floor of a (modern) little house in the suburbs. But any reminder for the latest train of this type was described to the first of May issue of Midland's *Review*.

Five people could have vanished in the shuffle before dawn passed, picked up here and there, the happy morsels that would reach after the families were released. It was recognized by the publisher that although these poems were in a bad state of dilapidation, they were verifications of good things and were for the most part just supported at night. The fact, while he was in the room, had been observed by the one who

This old chest had suffered much from the bygone "dark" days by various owners, and had been painted varnished, and otherwise so damaged that it could hardly be recognized as a fine piece of work. The removal and much polishing soon revealed the true form, however, and in a few much grand specimens particularly close to those now recently offered to you, it has been done.

apartment when I bought. But as the purchase was only \$150,000, she had that it looked like a very decent deal, not like those other overpriced units. The broker said that was because the unit was a retained estate, while the majority of the units in the building were sold by the new owners.

The Color Scheme

This table is, however, exceedingly well suited to a bathroom, but it falls a little short, particularly as a writing table and for meals in bed. In the latter case, an account of the pedestal form, the table can be pushed to close to the bed that the top acts as a long narrow pedestal, and in one that does not require personal removal.
